

# 5 Benefits of Having Vehicle CCTV On Forklifts

## 1. Protects Drivers

From false claims, as footage can prove what has happened.

## 3. Identifies Safety Improvements

Can help identify any safety concerns within a warehouse, and provides evidence to back them up.

## 2. Keeps People Safe

Helps keep all employees safe, both drivers and warehouse workers.

## 4. Useful Training Tool

Footage can be used as a training tool to help new or existing drivers.

## 5. Deters Criminals

The presence of cameras, even on a forklift, can deter any criminals that have broken into a warehouse.
