

# AI Detection Cameras

Human detection cameras for improved visibility and safety around the sides and rear of a vehicle.

## Protecting vulnerable road users

- >> Camera alerts when a human is detected in specified zones
- >> Only need part of a body such as a hand or foot to trigger a detection
- >> Zoning designed to minimise false alerts
- >> Event footage sent straight to VUEhub for review

## Get in touch today

- ✓ IP Rated IP69K
- ✓ Viewing angle 150°
- ✓ Internal and external audio alerts
- ✓ In-cab video alerts
- ✓ Real-time communication with platform
- ✓ Event footage automatically available

#### **Real-time alerts**

Visual and audio alarms to alert drivers in-cab to potential risk

#### **Accurate identification**

The AI technology only picks up humans - not static objects

#### **HD image**

High definition video output to provide drivers with a clear image in-cab

#### **Online alerts**

Alerts can also be sent to VUEhub for fleet managers to review
